5,671,996, issued September 30, 1997. The Assignment to the Assignee was recorded on March 6, 1995, at Reel 7385, Frames 0979-0980, a copy of which is attached.

The Disclaimant states that the evidentiary document, namely the attached Assignment, has been reviewed, and Disclaimant hereby certifies that, to the best of his knowledge and belief, title is in the Assignee seeking to take the below action.

The Assignee, Donnelly Corporation, hereby disclaims, except as provided below, the terminal part of any patent granted on the above-identified application, which would extend beyond the expiration of a full statutory term, as presently shortened by any terminal disclaimer, of United States Patent 6,412,973, which was issued on July 2, 2002, and hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to United States Patent 6,412,973, this agreement to run with any patent on the above-identified application and to be binding upon the grantor, and successors or assignees.

Assignee does not disclaim any part of any patent granted on the above-identified application prior to the expiration date of the full statutory term of U.S. Patent 6,412,973 in the event that patent later: 1) expires for failure to pay a maintenance fee, 2) is held unenforceable or found invalid by a court of competent jurisdiction, 3) is statutorily disclaimed in whole or is found terminally disclaimed under 37 CFR 1.321(a), 4) has all claims cancelled by a reexamination certificate, or 5) is reissued, or 6) is otherwise terminated prior to expiration of its statutory term as presently shortened by any terminal disclaimer, except for the separation of legal title stated above.
